CONTENTS

UNDERSTANDING CERVICAL COLPOSCOPY

- The normal cervix
- Native squamous epithelium
- Columnar epithelium
- Metaplasia - the normal transformation zone
- The abnormal transformation zone - cervical intraepithelial neoplasia
- The abnormal transformation zone - squamous cell cancer
- Glandular lesions - adenocarcinoma in situ and adenocarcinoma
- The cervix in pregnancy
- Cervical condylomata
- Cervical polyps, DES-exposed and other structural abnormalities
- Microglandular hyperplasia
- Inflammatory conditions
- Colposcopy of cervix and vaginal vault after treatment for cervical intraepithelial neoplasia and cancer
- Core Concepts of each topic

240 COLPOPHOTOGRAPHS
\$100.00

CONTENTS

COLOR ATLAS OF COLPOSCOPY

- The Colposcope
- Instrumentation and Clinical Set-up
- Steps in the Basic Colposcopic Examination
- The Normal Cervix: Anatomy and Structure
- The Original or Native Squamous Cervical Epithelium
- The Columnar Epithelium
- Metaplasia – The Normal Transformation Zone
- The Abnormal Transformation Zone and Squamous Intraepithelial Neoplasia
- Colposcopy of Cervical Squamous Cell Carcinoma
- Grading the Squamous Colposcopic Lesion
- Colposcopy of Adenocarcinoma In Situ and Adenocarcinoma of the Cervix
- Correlation in Squamous and Glandular Disease
- The Colposcopic Differentiation of Glandular Lesions from Other Cervical Lesions
- Colposcopy of the Cervix in Pregnancy
- Colposcopy of Cervical Condylomata
- Colposcopy of Cervical Polyps and the DES-Exposed
- Colposcopy of the Cervix After Treatment for Squamous Intraepithelial Neoplasia
- Colposcopy of the Vagina
- Colposcopy of the Vulva and Adjacent Sites

153 PAGES
429 COLOR IMAGES
CD - \$100.00

CONTENTS

PRINCIPLES OF CERVICAL COLPOSCOPY

- Instrumentation and Clinical Set-up
- Steps in Basic Colposcopic Examination
- The Anatomical Topography and Development Aspects of the Human Cervix
- The Original/Native Squamous Epithelium of the Cervix
- The Original or Native Squamous Cervical Epithelium
- The Columnar Epithelium of the Human Cervix
- Metaplasia and the Normal Transformation Zone
- The Abnormal Transformation Zone – Squamous Intraepithelial Neoplasia and Squamous Cell Carcinoma
- Satisfactory Colposcopy Versus Unsatisfactory Colposcopy and Grading the Squamous Lesion
- Correlation of Cytology, Colposcopy and Histology
- Colposcopy of Cervical Glandular Disease
- Colposcopy of Cervical Condylomata
- Colposcopy of the Cervix in Pregnancy
- Colposcopy of the Cervix in Diethylstilbestrol Exposure
- Colposcopy of Microglandular Hyperplasia
- Colposcopy of Masses Prolapsing from the Uterus
- Colposcopy of the Cervix in Trichomonas and Candida Infections

186 PAGES
387 COLOR IMAGES
CD - \$100.00

COLPOSCOPY TRAINING COURSES ON SITE FOR YOUR GROUP

Training programs in basic and advanced colposcopy are available for groups on site. They consist of lectures and videos covering terminology, equipment, clinic set-up, procedures, fundamentals of diagnosis, biopsy and correlation, treatment options, follow-up requirements and current standards of practice. Training programs can include workshops with equipment. World class faculty. 1-3 days. Textbooks included. Contact us for more information and to obtain a proposal for your group that will specifically address each group's experience and clinical objectives. 713-224-7580 (Houston) or 800-477-7702. References from previous institutional hosts available.

25 Years of Excellence in Publishing & CME
